CLINICAL TOXICOLOGY, 17(4), pp. 603-608 (1980)

Index to Volume 17*

A

Abrus ingestion, 401-405
Absorption, of environmental chemicals, 147-158
ACAC. See Albumin-cellulose nitrate-coated activated charcoal (ACAC)
Acute poisoning, in Barcelona, Spain, 421-428
Adsorptive capacity, of activated charcoal in presence of magnesium citrate and NF, 457-461
Albumin-cellulose nitrate-coated activated charcoal (ACAC), clinical experience with, in acute intoxication, 529-542
Alcohol
  as abused drug, 10-17
  toxic effects of, on folate metabolism, 407-411
Aldrin, significance of acute and chronic renal disease in Osborne-Mendel rats ingesting, 159-170
Amberlite XAD 4 resin, study by hemoperfusion on, 439-449
Amygdalin, in Mexican drug therapy, 94-96
Anemia, aplastic, role of p-NO_2 in, 359-373
Announcement, 477-489
ANS. See Autonomic nervous system
Antihistamines, in Mexican drug therapy, 92-93
Aplastic anemia. See Anemia, aplastic
Arimura, G. K., 359-373
Arsenic, hemodialysis clearance of, 451-456
Asanuma, Y., 571-581
Aspiration toxicity, of ketones, 271-317
Autonomic nervous system (ANS), psychotropic drugs effect on, 231-270

B

Barbiturate. See 1,3-Dialkyl barbiturate derivatives
Barton, C. H., 451-456
Berzelius, J: J., 171-172
Biological effects, of mycotoxins, 45-83
Biotransformation, of environmental chemicals, 147-158
Blachley, J. D., 413-419
Blood flow, muscle, during acute ethanol infusion, 413-419
Body elimination, of carbamazepine during chronic hemodialysis, 429-438

*This index contains the names of all contributors to Volume 17, 1980.

Body fluids, schematic procedure for determination of drugs in, 319-336
Bolisay, C. G., 491-499
Bregmen, H., 557-569
Bruni, J., 429-438
Budd, R. D., 375-393

C

Calcium gluconate, in massive verapamil poisoning, 395-400
Cami, J., 421-428
Campbell, C. L., 407-411
Cancer chemotherapeutic drug removal, hemoperfusion for, 557-569
Cancer therapy, 93-94
See also Carcinogenicity
Carbamazepine, hemodialysis clearance and total body elimination of, during chronic hemodialysis, 429-438
Carcinogenicity
of ingestion of dieldrin or aldrin by Osborne-Mendel rats, 159-170
of TRIS in animals, 109-110
Carcinogenic nonsense, molecular, 475-476 (Editorial)
Carey, W. D., 571-581
Central nervous system (CNS)
psychotropic drugs effect on, 231-270
stimulants of, detection and interference of, in urine drug-screening procedures, 337-351
effect of thallium poisoning on, 139-140
Chang, T. M. S., 529-542
Charcoal
ACAC coated, clinical experience with, in acute intoxication, 529-542
activated, enhanced adsorptive capacity of, in presence of,
[Charcoal]
in presence of magnesium citrate and NF, 457-461
coated activated, long-term hemoperfusion with, 543-546
Chemicals. See Environmental chemicals; Flame-retardant chemicals
Chemotherapy. See Cancer chemotherapeutic drug removal
Chloramphenicol (CAP) toxicity, 359-373
Chopin, C., 439-449
Ciaccheri, M., 395-400
CNS. See Central nervous system
Comstock, E. G., 463-473

D

de Castro, F. J., 401-405
Desprez, M., 439-449
DeVita, V. T., Jr., 477-489 (Announcement)
1,3 Dialkyl barbiturate derivatives, gas chromatographic properties of, 375-382
Diazepam, in Mexican drug therapy, 91-92
Dieldrin, significance of acute and chronic renal disease in Osborne-Mendel rats ingesting, 159-170
Digoxin, hemoperfusion of, intoxication, 501-513
Diisopyramide, intoxication with, 439-449
Dog studies, normal resting and exercising muscle blood flow during acute ethanol infusion in, 413-419
Dolara, A., 395-400
Drug overdosage, hemoperfusion in, 583-602
Drug removal. See Cancer chemotherapeutic drug removal
Drugs, schematic procedure for determination of, in body fluids, 319-336

Drug-screening procedure, urine, detection and interference of central nervous stimulants in, 337-351
Drug therapy, Mexican, 85-99
Drug toxicity, acute, hemoperfusion in, 547-556
Dunea, G., 543-546
Dupuis, B., 439-449

E

Emergency Department, toxicologic states treated in, 1-43
Emergency management, of poisoning, 271-272
Environmental chemicals, absorption, biotransformation, and excretion of, 147-158
Enzyme multiplied immunoassay technique (EMIT), testing for major drugs of abuse by, 337-351
Ethanol infusion, normal resting and exercising muscle blood flow during, 413-419
Evans, R., 547-556
Excretion, of environmental chemicals, 147-158

F

Ferguson, D. R., 571-581
Ferguson, E. R., 413-419
Ficarra, B. J., 1-43
Flame-retardant chemicals, in textiles, 101-131
Fluids. See Body fluids
Folate metabolism, toxic effects of alcohol on, 407-411
Frati, M., 421-428

G

Garella, S., 515-527
Gas-liquid chromatography (GLC), of 1,3-dialkyl barbiturate derivatives, 375-382
Gelfand, M. C., 557-569, 583-602
Gibson, T. P., 501-513
Gluconate. See Calcium gluconate
Goldbaum, L., 319-336
Gosselin, B., 439-449

H

Haguenoer, J.-M., 439-449
Hayes, A. W., 45-83
Hemodialysis, chronic, clearance and elimination of carbamazepine during, 429-438
Hemodialysis clearance
of arsenic, 451-456
of carbamazepine during chronic hemodialysis, 429-438
Hemoperfusion
ACAC coated charcoal, clinical experience with, in acute intoxication, 529-542
in acute drug toxicity, 547-556
for acute intoxication, 515-527
on Amberlite XAD 4 resin, 439-449
for cancer chemotherapeutic drug removal, 557-569
with coated activated charcoal, 543-546
of digoxin intoxication, 501-513
in drug overdosage, 583-602
status of, in toxicology, 491-499
Hermann, R. E., 571-581
Higginson, J., 477-489 (Announcement)
Hillman, R. S., 407-411
Hindmarsh, K. W., 85-99
Horn, C., 547-556
Human diseases, mycotoxins role in, 45-83
Human studies
abrus and ricinus ingestion in, 401-405
absorption, biotransformation, and excretion of environ-

[Human studies]
mental chemicals in, 147-158
ACAC coated charcoal hemoperfusion in acute intoxication of, 529-542
acute intoxication with diisopyramide in, 439-449
acute poisoning, of, in Barcelona, Spain, 421-428
clearance and elimination of carbamazepine in, during chronic hemodialysis, 429-438
hemodialysis clearance of arsenic in, 451-456
Mexican drug therapy in, 85-99
removal of protein-bound toxins from, 571-581
thallium poisoning in, 133-146
toxic effects of alcohol on folate metabolism of, 407-411
verapamil poisoning in, 395-400

I

Indomethacin, in Mexican drug therapy, 91
Intoxication
acute
clinical experience with ACAC coated charcoal hemoperfusion in, 529-542
hemoperfusion for, 515-527
with diisopyramide, 439-449
hemoperfusion of, of digoxin, 501-513
Ipecac, syrup form of, 353-358, 401-405
Ipecac poisoning, 353-358

J

Jaeger, R. W., 401-405
Jukes, T. H., 475-476 (Editorial)

K

Ketones, aspiration toxicity of, 271-317
Kinamore, P. A., 401-405
King, W. D., 353-358
Knochel, J. P., 413-419
Kramer, M. S., 491-499
Krug, M. J., 491-499
Kuhlman, J. J., Jr., 337-351

L

Lee, C. S., 429-439
LeGatt, D. F., 85-99
Leung, W. J., 383-393
Literature, on medical toxicology, 463-473
Long, J. T., 413-419
Lorch, J. A., 515-527

M

McLaughlin, J., Jr., 101-131
Magnesium citrate, enhanced adsorptive capacity of activated charcoal in presence of, 457-461
Malchesky, P. S., 571-581
Mamdani, B., 543-546
Mannaioni, P. F., 395-400
Marbury, T. C., 429-438
Martin, M. L., 421-428
Mathieu, D., 439-449
Medical toxicology, current literature on, 463-473
Metabolism. See Folate metabolism
Mexican drug therapy, 85-99
Miller, A. M., 359-373
Moeschlin, S., 133-146
Moroni, F., 395-400
Morphine, RIA antibody of, 383-393
Mortensen, L. M., 557-569
Muscle, resting and exercising, blood flow of, during acute ethanol infusion, 413-419

Mycotoxins, biological effects of, and their role in human diseases, 45-83

N

National Cancer Program Special communication, 477-489
Neurotoxicity, of psychotropic drugs, 231-270
NF, enhanced adsorptive capacity of activated charcoal in presence of, 457-461
p-Nitric oxide (p-NO_2), role of, in aplastic anemia, 359-373
Nose, Y., 571-581

O

Oehme, F. W., 147-158
O-Neal, H., 547-556
Opiates. See Radioimmunoassay (RIA) opiates
Osterberg, R. E., 101-131
Overdosage, See Drug overdosage

P

Panson, R. D., 271-317
Pathogenetic mechanisms, 359-373
Peck, K. O., 401-405
Perchalski, R. J., 429-438
Poisoning. See Thallium poisoning; Verapamil poisoning
Protein-bound toxins. See Toxins, protein-bound
Psychotropic drugs, neurotoxicity of, 231-270

R

Radioimmunoassay (RIA) opiates, structure versus reactivity of, 383-393
Rahman, A., 557-569
Raja, R. M., 491-499
Rat studies, significance of acute and chronic renal disease in, ingesting dieldrin or aldrin, 159-170
Renal disease, acute and chronic, significance of, in Osborne-Mendel rats ingesting dieldrin or aldrin, 159-170
Resin, Amberlite XAD 4, study by hemoperfusion on, 439-449
Reuber, M. D., 159-170
Ricinus ingestion, 401-405
Roche, 383-393
Rosenbaum, J. L., 491-499
Ryan, C. F., 457-461

S

Salem, Z., 359-373
Schein, P. S., 557-569
Schematic procedure, for determination of drugs in body fluids, 319-336
Schreiner, G. E., 557-569
Selenium, toxicology of, 171-230
Self-poisoning, 515-516
Shanor, S. P., 337-351
Sharpstone, P., 547-556
Siemsen, A. W., 543-546
Smith, J. W., 571-581
Sodium chloride, hypertonic, in massive verapamil poisoning, 395-400
Spain, acute poisoning in, 421-428
Spigiel, R. W., 457-461
Steinberg, S. E., 407-411
Steroids, in Mexican drug therapy, 90-91
Stimulants, of central nervous system, 337-351
Syrup form, of ipecac, 353-358

T

Textiles, flame-retardant chemicals in, 101-131

Tilstone, W. J., 557-569
Thallium poisoning, 133-146
Thin-layer chromatography (TLC), testing for major drugs of abuse by, 337-351
Toxicity
of alcohol on folate metabolism, 407-411
See also Aspiration toxicity; Chloramphenical toxicity; Drug toxicity
Toxicology
of selenium, 171-230
states of, treated in an Emergency Department, 1-43
status of hemoperfusion in, 491-499
See also Medical toxicology
Toxins, protein-bound, removal of, from critical care patients, 571-581
Trafford, A., 547-556
Tranquilizer, abuse of, 17-19

U

Ulsamer, A. G., 101-131
Upham, T., 451-456
Urine, drug-screening procedures using, 337-351

V

Vaziri, N. D., 451-456
Verapamil poisoning, calcium gluconate and hypertonic sodium chloride in, 395-400

W

Wang, L. H., 429-438
Wattel, F., 439-449
Wilber, C. G., 171-230
Winchester, J. F., 557-569, 583-602
Winek, C. L., 271-317, 337, 351

Y

Yang, F. C., 383-393
Yunis, A. A., 359-373
